Description:

First prize from the 2016 BMA Medical Book Awards for Neurology

Honorable mention from the 2017 PROSE Awards for Textbook/Clinical Medicine

Overall, the book is well written and easy to read. The basic points of each topic are concisely explained with the salient facts and illustrated with clear, thoughtful, well-placed, and appropriately labeled images, tables, and figures. -- Journal of Neuro-Ophthalmology

The authors have excelled in making this book a wonderful teaching tool for a broad audience....This is a truly wonderful addition to any medical library. -- **Doody's Review (starred review)**

Neuro-Ophthalmology Illustrated, Second Edition, is an up-to-date, beautifully illustrated text that guides readers in recognizing signs and symptoms, localizing pathology, developing a differential diagnosis, and selecting a management strategy. The content in this new edition reflects the most recent advances in neuro-ophthalmology.

Key Features:

- Includes more than 900 full-color images, line drawings, and charts that help readers understand these complex conditions
- Written by two of the most prominent neuro-ophthalmologists in the world, with a combined 40 years of teaching experience
- Offers step-by-step guidance on performing examinations and covers disorders of the visual afferent system, the pupil, ocular motor efferent systems, and the orbit and lid

This second edition of *Neuro-Ophthalmology Illustrated* is a handy reference for ophthalmologists, neurologists, and neurosurgeons as well as an ideal resource for residents preparing to take board examinations in these specialties.
